

Feel Like Clarity

Verse 1:

I'm singin songs about the south land
Singin songs about all of those stories of mine
Wanna know if you were ever gonna see me in a foreign car
But then again I can't help but to think of time

Chorus:

Why don't we stay in this one bedroom apartment for a day
I think our bodies have earnt the right
Why don't you see me in all the foggy pictures took in may
I feel like clarities outta sight

Verse 2:

I wanna know what's up your alley
Heard your livin in your mommas house
I know your tired, bruised and broken bout your parents
splitting up
But then again I cant help but figure out
Why I can't get to know your brain before I sleep with your
body
I'm like a freight train with broken lights

Chorus:

But can we stay in this one bedroom apartment for a day
I think our bodies have earnt the right
Why don't you see me in all the foggy pictures took in may
I feel like clarities outta sight

Verse 3:

I know the roads been pretty dusty
And I know you got your friends to feed
But I kinda thought that one day you'd sail away with me
Kinda thought that I'd sweep you off your feet

Chorus:

Can we stay in this one bedroom apartment for a day
I think our bodies have earnt the right
Why don't you see me in all the foggy pictures took in may
I feel like clarities outta sight

Verse 4:

I heard your driving on the right side
I heard the colour of your hair has changed
I heard your skins a comic book for everyone around to read
So you had no trouble flipping over pages

Chorus:

But can we stay in this one bedroom apartment for a day
I think our bodies have earned the right
Why don't you see me in all the foggy pictures took in may
I feel like clarities outta sight
